

# Turtle Creek Garden Club

## Mission Statement

The mission statement of the Turtle Creek Garden Club is to learn and share all that is good about gardening with each other.

To have guest speakers, when possible, to educate us on the topics that we are interested in learning.

To try and recruit new members at all times to help our club grow in size and knowledge.

To advise on neighborhood landscaping projects and to possibly assist in community projects that will help to beautify our surroundings.
